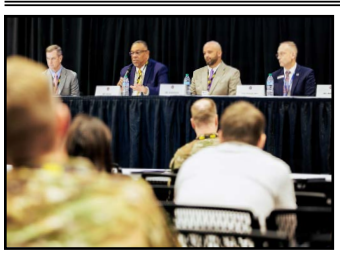
DoW barracks TF visits to advance Soldier quality of life

FORT BELVOIR, Va. — Dakota Meyer, Senior Advisor to the SecWar for Barracks Task Force, visited Fort Belvoir, Nov. 16, to assess barracks conditions and meet with service members as part of a department-wide initiative to modernize living quarters. The DoW established the BTF to address inconsistent standards, uneven accountability, and infrastructure challenges across the military.

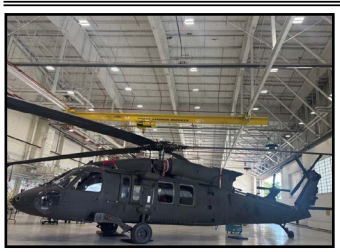
Dellamonica: AMC's honors its best

REDSTONE ARSENAL, Ala. – U.S. Army Materiel Command honored 11 of its top military and civilian employees from across the enterprise during the 2025 Louis Dellamonica Award ceremony at AMC HQs, November 18. Joined by leaders from across the AMC enterprise, Lt. Gen. Gavin Lawrence, AMC deputy commanding general and acting commander, presided over the ceremony and presented awards.



AMCOM talks sustainment at AAAA CFF

HUNTSVILLE, Ala. - Army aviation readiness depends on a connected enterprise of Soldiers, sustainment professionals and industry partners working together to keep aircraft mission-ready. That message was at the forefront of the U.S. Army Aviation and Missile Command's participation in the 2026 Army Aviation Association of America Cribbins Futures Forum, held Nov. 16-18 in Huntsville, AL.



Saving Energy While Saving Money

FORT CAMPBELL, Ky. — Fort Campbell is midway through a $33 million infrastructure overhaul aimed at slashing utility costs and modernizing power systems across nearly 300 buildings without requiring upfront taxpayer funding. The installation is executing the upgrades through an Energy Savings Performance Contract managed by the U.S. Army Corp of Engineers, Huntsville, Alabama.

411th CSB advances security, housing, and innovation

SEOUL, South Korea — Following a busy fiscal year closeout that saw more than 50 contracts executed totaling over $13.8 million, the 411th Contracting Support Brigade is driving key theater initiatives aligned with Eighth Army priorities. Current efforts focus heavily on three core areas: housing maintenance oversight, the integration of SI platform technology to streamline QA, and peninsula-wide physical security.

ASIC advances software readiness in 2026

Aberdeen Proving Ground, Md. — The U.S. Army Communications-Electronics Command's Army Software & Innovation Center continued delivering software, data, and field support capabilities to the Soldier in 2026. From virtual developer workstations and enterprise data tools to rapid prototypes for operational users, CECOM ASIC supported Army readiness across missions.
