New XO for Marine Corps Logistics Base Barstow

MCLBB earns 2017 USMC Medium Fire Department of the Year

Base Safety employee SGE of the Year

DBIDS starts next week

As a reminder, MCLB Barstow is preparing to transition from the current RAPIDGate system to the Defense Biometric Identification System (DBIDS) during the week of 13-16 August, 2018. All Government Sponsors need to ensure their respective government contract personnel requiring transition to a DBIDS credential to access the installation begin pre-enrollment for the credential using the following website:

<https://dbids-global.dmdc.mil/enroll#!/>

This is required to receive a DBIDS credential, and pre-enrollment will expedite the actual issuing of the DBIDS credential.

For additional information regarding the transition to DBIDS, to include the actual issuance of the credential, contact either Michael Reyes or Charles Ayers, MCLB Physical Security section, at 577-6855 or 6858.

Leave Share Program

Individuals currently affected by medical emergencies and in need of leave donations:

Adams, James Jr.
Holt, Shayna
Johnson, Jeffrey
Jones, Anna
Ulmer, Wayne

Anyone desiring to donate annual leave under the Leave Share Program should contact the Human Resources Office at 577-6915.

Infant Massage Class
Desert View Housing
Community Center
Wed. Sept. 5
9 - 10 a.m.

Each 5-week series teaches massage techniques and the benefits of infant massage therapy promoting attachment and bonding between the caregiver and child. Workshops are designed for parents of infants ages 0-1. Parents of toddlers and with multiple children are welcome. Registration is recommended but not required. To register or to get more information, call New Parent Support at 577-6533.

Spin Class
Semper Fit Gym
Tues. Aug. 14
11:30 a.m. - 12:30 p.m.

Classes are taught by our qualified instructor to motivating music with a variety of standing and stationary positions. For more information call 577-6817.

4

Operation Tobacco Free Marine

Semper Fit Gym
Mon. Aug. 13
11:30 a.m. - 12 p.m.

The "Operation Tobacco Free Marine" Tobacco Cessation Program provides the tools and resources to help you become tobacco free. Individual and group classes are available to the entire Marine Corps community.

Story Time & Craft
McTureous Hall
Tues. Aug. 21
10 - 11 a.m.

Story time and Craft is geared towards babies and toddler age children. We read stories, sing songs and make crafts! We learn how to sit quietly, listen and share with our friends! For more information call Library Services at 577-6395.

Screens and Strikes
Movie Night
Leatherneck Lanes
Fri. Aug. 10
All Day

Two dollar bowling specials with shoes included. We'll be watching the family friendly movie "Gnome Alone". For more information contact Leatherneck Lanes at 577-6264 or visit www.mccsbarstow.com/bowling/.

Play Morning
Desert View Housing
Community Center
Fri. Aug. 10
9 - 11 a.m.

Come join in the fun! Play morning is every Friday. All active duty service members and their dependents are invited to come enjoy singing, stories, crafts and have structured play time with toys and interactive time learning how to socialize babies and toddlers. Make new friends and learn something new each week. For more information contact New Parent Support at 577-6533.

Sugar Loaf Social
Bldg. 38
Fri. Aug. 17
4 - 9 p.m.

Come on down and have fun with your friends and co-workers at happy hour from 4 - 6 p.m. Snacks such as mozzarella sticks, nachos, chicken tenders, fries and more are available for purchase. Enjoy a game of darts and pool.

Energy Tip

Energy efficient windows reduce "heat gain" into your home more than typical windows do, without reducing the visible light.

2017 USMC Medium Fire Department of the Year

Story by: Laurie Pearson
CommStrat Chief

Marine Corps Logistics Base Barstow's Fire and Emergency Services received top honors as the 2017 United States Marine Corps' Medium Fire Department of the Year during a ceremony held in San Diego, Calif., July 17.

"Each year, Marine Corps leadership identifies and honors Marine Corps FES departments and personnel for their professionalism and dedication," said Deputy Fire Chief Ryan Tworek. "The departmental and individual winners showcase the full scope of incident responses such as fire prevention, continuing education, and community outreach services."

The awards are presented in 11 categories for both organizations and individuals. The USMC Award winners become the Marine Corps

Photo courtesy of Fire and Emergency Services

nominees to the Department of Defense FES Awards program established by DoD Instruction 6055.06.

"To qualify for the Medium Fire Department Category the fire department must have four to eight staffed firefighting companies," Tworek explained.

The award was presented by Maj. Gen. Vincent A. Coglianesse, Commander, Marine Corps Installations Command/Assistant Deputy Commandant Installations and Logistics (Facilities) and Sgt. Maj. Charles R. Williams, Marine Corps Installations Command sergeant major. Also present to receive the award was Col. Sekou S. Karega, commanding officer and Danny Strand, FES director on MCLB Barstow.

MCLB Barstow Fire & Emergency Services responds to calls on base, but also off of the base in the local community for incidents such as fires, car accidents and medical alerts. They also send resources to help battle wildfires such as the Carr Fire and Cranston Fire currently. The job also comes with inherent dangers which have been highlighted in the news recently as four firefighters throughout the

state of California have lost their lives while combatting wildfires.

"There is a reason we call them firefighters," Strand said. "It's because fighting a fire is like going into combat to do battle with an enemy that can kill you."

Ruby Adams: 2018 SGE of the Year

Story by: Laurie Pearson
CommStrat Chief

Ruby Adams,
safety technician
aboard Marine Corps
Logistics Base

Barstow, Calif., was selected as the Voluntary Protection Program's Region IX Special Government Employee of the Year once again and the 2018 Department of Defense Voluntary Protection Programs Achievement Award winner, which will be formally announced at VPP Participants Association Safety Summit at the end of August.

"This is the sixth time in as many years that our base has achieved the Region IX SGE award and a National nomination," said Ray Aguilar, base safety director. "It's also the fourth time in a row that Ms. Adams was selected as the Region IX SGE of the Year. The competition is very high for both of the coveted awards based on feedback I have received."

In order to maintain the safety and efficiency of military and civilian personnel, the Department of Defense encouraged bases to achieve safety management systems recognition through the Occupational Safety and Health Administration's Voluntary Protection Program. As of 2018, there are 57 DoD sites with OSHA VPP Star recognition. As part of the program, DoD employees can obtain specialized training to become Special Government Employees, which affords them the opportunity to spearhead safety functions on their own facility, but also to travel to other locations to conduct inspections with other OSHA SGE certified employees.

Adams credits much of her success to her extensive safety knowledge, SGE experiences, and valuable networking with the OSHA managers.

"I am actively involved with the Region IX VPP Participants Association Planning Committee, too, as well as the Labor and Management Committee for the past six years," Adams explained. "The Planning Committee meets via teleconference on a monthly bases to plan upcoming Region IX Safety Summits which involves recruiting workshop presenters, exhibitors, keynote speakers, and securing sponsorship for food, music, golf tournament, and give-aways during the summit. I've had a great working relationship with Region IX VPPPA Planning Committee members and partake in whatever I can to ensure a successful summit."

In March 2018, Adams was able to request and secure a Walking Color Guard from Mira Mar Air Station for opening ceremonies at the Region IX Safety Summit.

"The color guard happened to be an all-female color guard," she said. "How exciting was that? The young ladies had never been to a VPP Safety Summit and were intrigued with the possibilities of VPP at their own facility one day."

The Region IX Planning Committee is comprised of 10 team members and each member is delegated tasks for the summit plan and work throughout the year to meet a deadline and bring it all together. Eventually, all completed tasks are accomplished and the end result is a successful summit.

"Region IX covers Arizona, California, Guam, Hawaii, American Samoa, and Nevada," Aguilar explained. "Ruby has stepped up to every task and challenge that I have asked of her without question. It is easy for me to write her up for these awards as I simply describe what she does for the base and others. I do have to give much credit to Mr. Green at S-4 as he allowed Ruby to participate as an SGE very frequently while Ruby worked with him."

Her dedication to the VPP platform is partly because she wants to make a difference with the base culture and advocate safety wherever possible. One of the benefits is being able to work with outstanding safety professionals and individuals who share best practices, processes, assisting organizations to embrace VPP.

"I've had some incredible experiences and networking during my OSHA audits," she

said. "It has afforded me the opportunity to go out on OSHA audits, work closely with other OSHA leads and gain from their perspectives. This individual award along with the installation award is meant to encourage a continuous positive safety culture change, and to recognize the hard work of the DoD installations and individuals committed to VPP. The nominees were outstanding making it difficult for the evaluators."

She continues to mentor recertified sites and provide them valuable information to assist them with their continuous improvement processes. Throughout her service, Adams has conducted fourteen

New XO of MCLB Barstow former director of FSD

Story by: Keith Hayes
CommStrat Planner

Lieutenant Colonel Timothy A. Silkowski assumed the role of executive officer of Marine Corps Logistics Base Barstow, Calif., July 30.

Prior to taking on the XO job, Silkowski was director of Fleet Support Division aboard the Yermo Annex of MCLB Barstow.

“My biggest concern at FSD was focusing on having equipment ready for the Fleet Marine Force, and here our customer is the tenants on this base,” Silkowski said.

As his predecessor Lt. Col. Kenneth Lee noted, Silkowski is now equivalent to the deputy mayor of a small city.

“My main jobs will be working a lot with facilities and civilians and acting as a buffer for the CO,” he continued. “I will be handling problems as they come up and before they get to the CO.”

Silkowski also noted, he will not even have to drive to work anymore.

“This is a nice move for me precisely because I don’t have to move, since I live on Officers’ Row,” he said. “I can put my boys on a bus right in front of my house and they get dropped off right in front of my house and it’s all within walking distance.”

Although his main task will be working with base commander Col. Craig Clemans, Silkowski also wants to work closely with the Marines.

“I would like to concentrate on keeping morale

Photo by: Keith Hayes

Lieutenant Colonel Timothy Silkowski, executive officer, Marine Corps Logistics Base Barstow, stands holding a vintage military canteen cup in front of a wall covered with military memorabilia in his office at command headquarters, Aug. 3.

up, because a lot of Marines get sent here and many feel like they’re off the grid,” he said.

Silkowski’s office in Headquarters building has the look of a museum devoted to military history, reflecting his passion for the subject.

“My dad always said if you want a bright new idea read an old book,” he said. “Human civilization keeps repeating the same mistakes over and over again because they lose sight of history.”

He has been deployed five times during his career, twice to Iraq, twice to Afghanistan and once to the Philippines to advise the military there during their battle against terrorism.

Silkowski said the attributes of MCLB Barstow make it a strategic asset for the Marine Corps: It is geographically ideal because of the freeway and rail systems and the environmental conditions make it ideal for the long-term outdoor storage of huge military equipment.

Putting all those issues aside, Silkowski wanted every Marine and Civilian Marine aboard base to know one thing.

“I always have the best interests of this organization and the people aboard it in mind and will do everything I can to promote the safety and welfare of the employees and Marines while continuing to help maintain Marine Corps Logistics Base Barstow as a viable and valuable asset to the Marine Corps.”

Photo by: Keith Hayes

Lieutenant Colonel Timothy Silkowski is the new executive officer of Marine Corps Logistics Base Barstow, Calif. The former director of Fleet Support Division is an avid historian and a collector of military memorabilia. The vintage newspaper announcing the beginning of World War II and another out of frame declaring the end of the war both festoon the walls of his new office at command headquarters, building 15, Aug. 3.

FOCUS program celebrating two years

Story by: Keith Hayes
CommStrat Planner

The Department of Defense FOCUS program that offers help with the unique challenges facing military families is celebrating its second year of service aboard Marine Corps Logistics Base Barstow, Calif.

The Families OverComing Under Stress program has been in operation aboard MCLBB since August 2016.

"We will be hosting a FOCUS open house in building 126 behind the Marine Memorial Chapel from 11 a.m. to 3 p.m. August 29th," said Jessica Grow, FOCUS Family Resilience Trainer at MCLBB. "Families, providers, and anyone who works on base is welcome to drop in and learn about the program and what we do. We'll have activities, refreshments, and cupcakes to celebrate the two year anniversary of FOCUS Barstow."

FOCUS offers strength-based training for military families in five areas including how to deal with emotional regulation, communication, problem solving, goal setting, managing deployment, and stress reminders.

Grow noted that FOCUS teaches practical skills to help families and couples feel prepared to meet the challenges of military life such as deployments, stress, injury and other transitions. FOCUS training

is confidential, free and offers services at family friendly hours.

Even though MCLB Barstow is a non-deployable base, one aspect of military life that the FOCUS program addresses that is relatively unique to MCLBB is how families cope with getting a permanent change of station to a remote location. A child starting at a new school can face a difficult transition as well, and FOCUS offers training in that area.

Grow said the FOCUS training helps people realize that they are not alone in how they feel about different aspects of military life.

"We constantly point out the family's strengths and provide them with education about different topics," she said, "and trying to normalize some of the reactions that the family might be experiencing so that they realize 'Okay, this is normal. I'm not the only one who is having a hard time with this.'"

For even more remote locations such as the Marine Corps Mountain Warfare Training Center, Pickel Meadow near Bridgeport, Calif., the unique training can be accessed via computer through TeleFOCUS. Families looking for training can "meet" online with a FOCUS Resilience Trainer to take advantage of the strength training.

"Being a former military spouse I'm aware of some challenges families face," Grow said. "I

definitely wish that I would have known about FOCUS. It was not available at any of the installations we were stationed on but the training would have been beneficial."

FOCUS as a whole was launched in 2008 at seven Navy and Marine Corps sites. Since then it has expanded to 29 sites across all branches of the military in-country and around the world at DoD installations.

Grow said the FOCUS program is free and confidential for military families, and is considered training, not treatment, therapy, or counseling. The enrollment is not recorded in the service member's record and is not reported to the command or other chains of leadership, so this helps families and couples feel comfortable seeking FOCUS support.

"I have a passion for working with the military population and have respect for all that they do for our country," she said. "I love what I do. Seeing families walk out after they complete training and the difference from when they first enrolled, it definitely feels good to see the growth."

Once again, FOCUS is holding an open house August 29 from 11 a.m. to 3 p.m. to celebrate its two-year anniversary aboard MCLBB at its offices in building 126 behind the Marine Memorial Chapel.

Ruby Adams continued from page 7

formal VPP certifications and recertification assessments with OSHA; participated on three VPP readiness assessments with the DoD Safety Management Center of Excellence; conducted four site assist visits to mentor DoD facilities as well as assisted in instructing the SGE course at Region IX VPP Safety Summit in San Francisco.

"I was directly involved with the successful VPP certifications of MCLB Albany and Blount Island Command and the recertification's of National Aeronautics and Space Administration Ames Research Center, and Defense Logistics Agency Norfolk," Adams said. "Last year, I participated in four OSHA audits with Hendrickson Trailer Suspension in Mitchell South, Dakota, 3M Company in South Dakota, Marvin

Windows in Denver, Colorado, and Monsanto on Kilhei, Hawaii."

Though her daily office duties are primary, she seeks opportunities to select interesting sites for evaluation, and an opportunity to connect with what she calls "the best of the best in VPP."

"I am truly grateful to have a wonderful safety team supporting me as I continue to learn more about the safety world and the OSHA 29 Code of Federal Regulations, General Industry Regulations and Standards, that guides me," Adams said.

"Ruby is a pleasure to work with and she is always looking for ways to make things better and to learn," Aguilar said. "Her actions speak for her. She has great character, and is a solid member of the safety team."

MOQ for MCLBB is back to back winner

Story by: Keith Hayes
CommStrat Planner

Lance Corporal Brendan T. McDowell has been named the Marine of the Quarter for the second quarter of 2018 at Marine Corps Logistics Base Barstow, Calif.

McDowell was also the Marine of the Quarter for the first quarter. Between the time he received his first Marine of the Quarter recognition and the second, he got married in May to a woman he has known since third grade.

“I moved from the barracks to base housing after I got married,” McDowell said. “For a 19-year-old man who’s never had his own home before, it’s great.”

He works as the Network Transport Administrator for S-6 Communications Department programming and encrypting handheld and mobile radios, but that was not the job he trained for in communications school.

“I expected to be working wire, hanging aerial cables and being down in manholes like I was being taught as a construction wireman,” McDowell said. “Now I see that what I’m doing keeps the fire department stable and the police department up and running. A few weeks ago when we had some rain, lightning knocked out radio communications at the range, so I came in on the weekend to reset and reprogram all the radios.”

“Lance Cpl. McDowell works diligently and intelligently at any task he’s assigned,” said Master Sgt. Tianna Tien, Communications chief. “He also acts as a kind of mentor for the younger Marines. He is an excellent choice for Marine of the Quarter recognition.”

McDowell was born in Deer Park, Long Island, N.Y., and joined the Corps on the delayed enlistment program in March 2016. He began recruit training at Marine Corps Recruit Depot Parris Island, S.C., in November of that year, graduating in February 2017.

“I joined when I was 17, so I had to have my parents’ permission,” McDowell explained. “My father was all for it because he’s very patriotic but couldn’t join the service himself because of medical conditions. My mother, on the other hand, had heard some disturbing stories about the Marine Corps. She did sign the papers but she was not happy with the decision. Once I completed boot camp, though, she came to the realization that things were not as bad as they were years and years ago. Both my parents are now enthusiastically behind me and my career.”

10 He used the eight months between the DEP and boot camp to watch all the videos he could

Photo by: Jack Adamyk

Lance Corporal Brendan McDowell, wire chief, S-6 Communications, and Marine of the Quarter for the second straight time, stands with Headquarters Company during Change of Command rehearsals on Sorenson Field at Marine Corps Logistics Base Barstow July 18.

on the Marine Corps and Boot Camp, familiarizing himself with what to expect on the physical side of the job.

“Physically I was prepared but mentally you can never be ready for something like that because it’s brand new,” McDowell said.

But his time in recruit training made an impression and he hopes it will form a part of his future in the Corps because he plans to become a drill instructor.

McDowell likes sports and has a unique hobby for this area, which admittedly he has not had time to engage in in the Corps; stringing lacrosse stick heads.

“It’s a great skill to have especially where I’m from. There are a lot of people who play lacrosse and if you’re good at stringing heads, everybody’s buying your product,” he said. “That’s fun for me.”

If someone were to ask him about joining the Corps, McDowell said, “I would tell people that the Marine Corps is not for everybody. You have to have a thick skin and let stuff roll off of you and take the discipline and responsibility they put on your shoulders.”

Drive, ambition, leadership define NCO

Story by: Keith Hayes
CommStrat Planner

Sergeant Rudy Hernandez is the Noncommissioned Officer of the Quarter for the second quarter of 2018 at Marine Corps Logistics Base Barstow, Calif.

Hernandez, supply administrative clerk, fuel accountant, S-4 Logistics, joined the Marine Corps in July 2015 at the age of 17 with his parents' permission.

"My parents' reaction was mixed about me joining the Marine Corps," Hernandez said. "It took a lot of convincing to get my mother to sign the papers to let me in the Corps at 17."

The Houston native went through boot camp at Marine Corps Recruit Depot San Diego and then Marine Combat Training at Marine Corps Base Camp Pendleton, Calif.

"I was stationed at Marine Corps Air Station Futenma Okinawa, Japan, for my first duty station as a supply administrative clerk with Marine Air Support Squadron 2," Hernandez said. "Okinawa was my first choice because I love Japanese culture and going overseas was one thing I always wanted to do."

Hernandez credits the NCO leadership at MASS2 for giving him chances to participate in meritorious promotion boards and allowing him to take online courses and work outside of his military occupational specialty of supply.

"In Okinawa, I had a lot of responsibilities in accounting, property and disposition

services," he said. "It actually rounded me out a great deal."

Following Okinawa Cpl. Hernandez was stationed at MCLB Barstow where he was promoted to sergeant June 2.

"I was excited about coming to MCLB Barstow because I wanted to go to the West Coast," Hernandez said. "I didn't know much about the base, but I'm not a partying kind of person, so it really didn't bother me that I was in the middle of what felt like nowhere. But since I've been here, I realize that I'm only

accomplish his tasks with minimum supervision or instruction," Wallace said. "He has qualities that the junior Marines can look up to. Sergeant Hernandez was the only clear choice for the NCO of the Quarter."

"I can absolutely tell you that if that young devil dog plans to stick around the Marine Corps," Wallace continued, "I can see him being either a master gunnery sergeant or sergeant major. If he keeps the same drive that he has now, he's not going to have many problems."

Hernandez is a Marine Corps Martial Arts Instructor, and pursues the discipline as a hobby as well.

"I believe that going through the MAI course attests to my character and shows my ability to persevere and push through a very tough course," Hernandez said.

He also likes to draw and is working on improving his technique during his tenure at MCLBB.

Hernandez believes his work ethic, willingness to learn, and leading by example are the major reasons he was selected as NCO of the Quarter.

"I believe that however good a game a person may talk, leading by example is the best way to inspire young Marines," the sergeant said. "I lead with my actions. I've never felt the need to be boastful because I let what I do speak for me."

Photo by: Keith Hayes
