The U.S. Army Corps of Engineers has paved the way in complex construction environments for almost a century. Shortly before World War II, Congress and the War Department approved the transfer of military construction responsibilities from an overtaxed Quartermaster Corps to the U.S. Army Corps of Engineers.

Today, the U.S. Army Corps of Engineers Transatlantic Division continues its legacy through its two districts, the Transatlantic Middle East District, headquartered in Virginia, and the Transatlantic Expeditionary District, which combined the Division's contingency operations assets as one optimized command, headquartered in Kuwait.

HEADQUARTERED AT CAMP ARIFJAN, KUWAIT

SUPPORT TO U.S. CENTRAL COMMAND & U.S. SPECIAL OPERATIONS COMMAND

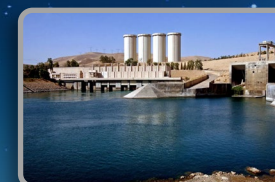

The U.S. Army Corps of Engineers (USACE) has six focused mission areas: Civil Works, Military Missions, Environmental, Emergency Operations, Research and Development, Sustainability. The Transatlantic Division primarily focuses on three aspects of these mission areas:

MILITARY MISSIONS: Support our Combatant Commands to achieve our DoD security objectives and advance our Nation's interests around the globe. Provide programmatic policy and management of the worldwide military construction programs as a designated DoD construction agent.

CONTINGENCY OPERATIONS: Support to military actions requiring rapid deployment of the full spectrum of military forces in support of national policy short of war. Delivering agile, responsive, and innovative, design, construction, engineering and contingency solutions maximizing the combat potential of the force, balanced against the many uncertainties of a rapidly developing operation undertaken when vital national interests are at stake.

INTERNATIONAL & INTERAGENCY: Integrate capabilities and expertise across the organization to enable our international and interagency partners to focus on their primary mission goals and objectives. Leverage our global presence, unique authorities, enduring relationships, and enterprise processes to deliver scalable solutions at home and abroad.

Our Capabilities

ENGINEERING, DESIGN & CONSTRUCTION

“What the Transatlantic Division brings to the CENTCOM AOR is a doorway to the full Army Corps of Engineers’ Enterprise and all the research and development, expertise, and experience that comes with it. This brings a lot of partnerships and a lot of innovation capability to the table.” ~COL William C. Hannan, Jr.

DIVISION AND DISTRICT CAPABILITIES:

- Engineering
- Planning
- Design & Construction
- Operations & Maintenance
- Program & Project Management
- Procurement & Contracting
- Research & Development
- Dredging
- Disaster Recovery
- Training

SUBJECT MATTERS EXPERTISE IN:

ENVIRONMENTAL SERVICES

Air/Water Quality, Compliance Documentation, Floodplains/Wetland Protection, Habitat Mitigation, Hazardous Waste Response, Impact Assessments, Inventories, Remedial Design/Action, Surveys/Audits

WATER RESOURCE MANAGEMENT

Dredge/Design/Procurement, Excavation, Maintenance, Flood Control Structures, Waste and Water Treatment, Water Resource Master Planning, Bridges, Port Facilities, and Locks/Dams/Ports

REAL ESTATE

Acquisition/Disposal, Appraisal, Leasing Management

70+ Years

Engineering Excellence throughout the Middle East & Central Asia

~ \$5.3 B Portfolio

Supporting our Nation, USCENTCOM Mission Partners, and Allied Nations

~ 275 Projects

Ongoing throughout the USCENTCOM & USSOCOM area of operations

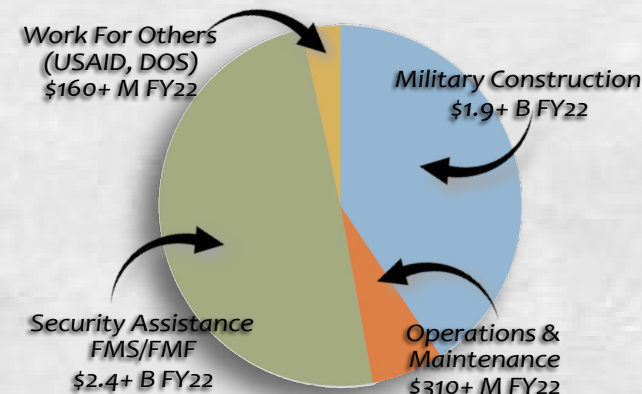

Our Partnerships

USACE BUILDING STRONG, TOGETHER

Our Division is unique. We are increasing **READINESS** and **MODERNIZATION** through military construction projects supporting the warfighter, enabling steady-state military operations, and sustaining our nation’s ability to fight and win wars. We are also providing engineering, design and construction for our allied nation partners through **FOREIGN MILITARY SALES** and related facilities and infrastructure design and construction, increasing capacity and enhancing security throughout the entire region.

PROGRAMS SUPPORT TO PARTNERS AND ALLIES

- Expeditionary Support for the Warfighter
- Counterpart Engagements
- Energy and Environmental Solutions
- Integrated Water Resource Management
- Applied Science and Technology
- Disaster Preparedness and Response

THEATER SECURITY COOPERATION - STRONGER TOGETHER

Military Construction Benefits

Increasing readiness and modernization through projects supporting the warfighter, enabling steady-state military operations, and sustaining our nation’s ability to fight and win wars.

Foreign Military Sales Benefits

Addressing the operational, training and maintenance needs of our allied nation partner’s military efforts, increasing interoperability and enabling sustainable security and continued stability with the region.

~ \$110 M

International and Interagency Services / Security Assistance (IIS) & Host Nation Support

~ \$174 M

Contingency Operations and Real Estate Support

OUR VISION

Trusted Team, Proudly Serving
as USACE's Tip of the Spear -
Providing Innovative Solutions for
our Nation, Allies, and Partners.

TAD Delivers Agile, Responsive, and Innovative,
Design, Construction, Engineering and
Contingency Solutions in support of CENTCOM,
SOCOM and other Global Partners to advance
National Security Interests.

LTC Richard T. Childers

TAE Deputy District Engineer
Stuart R. Cook

"What the Transatlantic Division brings to the CENTCOM AOR is an amazing partner. The Division has been constructing facilities and working with our partners in the Middle East since the 1950s. Ultimately, our outstanding relationships across the region allow the U.S. and its partners to advance their security objectives."

~ Col. William C. Hannan, Jr.
