MARINE CORPS BASE HAWAII

Passing the Guidon | Marine Corps Forces, Pacific Change of Command Ceremony

Story by Lance Cpl. Tania Guerrero

Lt. Gen. William M. Jurney relinquished command of Marine Corps Forces, Pacific (MARFORPAC) to Lt. Gen. James F. Glynn, marking both the end of Jurney's service and the start of Glynn's tenure, MCBH, Sept. 12, 2024.

Jurney enlisted in the Marine Corps in 1987 as an infantryman and was commissioned a year later through the Enlisted Commissioning Program. He was a rifle platoon commander and company executive officer during Operation Desert Storm. He later became

commanding officer of 1st Battalion, 6th Marines, deploying twice to support Operation Iraqi Freedom.

Jurney was also appointed as chief of plans at U.S. Joint Forces Command, Commanding General at Marine Corps Recruit Depot San Diego, and Commanding General for II Marine Expeditionary Force,

further developing his leadership. In September 2022, he assumed command of MARFORPAC.

"I may be new to the team, but I'm not a stranger to INDOPACOM or MARFORPAC's role in the region and nation," said Jurney when he first assumed command. "I've got no doubt the Marines will continue to contribute significantly."

During his two years in command, Jurney oversaw several major events, such as the first deployment of amphibious combat vehicles with the 15th Marine Expeditionary Unit. [Read More](#)

Chef Showdown: MCBH Marines Crowned MCIPAC Chefs of the Quarter

Story by Cpl. Clayton Baker

MCBH regularly hosts Chef of the Quarter competitions. The winners advance to compete for the title of MCBH Chef of the Year, competing in the Marine Corps Installations, Pacific (MCIPAC) Chef of the Quarter.

The Combined Arms Training Center at Camp Fuji, Japan, hosted the final competition of 2024. This year's competition faced complex adversity due to Typhoon Shanshan, which created uncertainty about whether the event would proceed, making travel to Camp Fuji difficult. Not even

Typhoon Shanshan could stop our chefs from winning the competition.

Adapting and overcoming, six teams from various MCIPAC mess halls gathered on the first day for menu planning, food preparation, and meal presentation rehearsals. Team MCBH, represented by Cpl. Luana Barone Olivera and Lance Cpl. Daryl Filsaime, facing time zone adjustments for the first time in Japan, was notably jet-lagged, but optimistic. On top of the time change and hours on a flight, Filsaime dealt with the challenges of pregnancy, which added to the nerves and tiredness leading up to the

competition.

As the first day came to a close, participants were still unsure if the competition would be canceled due to the typhoon. [Read More](#)

Mālama Ka 'Āina: MCBH Hosts Basewide Cleanup

Story by Lance Cpl. Marcos Albertorocha

MARINE CORPS BASE HAWAII - Mālama Ka 'Āina, a Hawaiian expression, translates to "care of the land." Mālama Ka 'Āina is hosted annually on Marine Corps Base Hawaii, as all hands participate in the base-wide clean up of all buildings and grounds. MCBH executes proper solid waste disposal and enforcement

procedures for littering to prevent, control, and decrease solid waste

pollution in Hawaii.

MCBH's communities were asked to embrace this sense of environmental stewardship by caring for the land of the Mōkapu Peninsula and other Marine Corps properties by participating in the Mālama Ka 'Āina every April and September. [Read More](#)

COMMUNITY SPOTLIGHT

Clark Abbey

Role at MCBH:
Beach Lifeguard Supervisor
Hometown:
Kaneohe, Hawaii
Accomplishments:
Water Safety & Marine Life Advocate

As the lifeguard supervisor at MCBH, Clark Abbey plays an important role in advocating and educating water safety and protecting marine wildlife on base. Born and raised in Kaneohe Bay, Abbey started surfing at the age of 3. His ocean experience and knowledge allows him to lead his team and ensure that everyone is safe in the waters.

"You have lifeguards on this beach that care about the community and want to educate everyone, we want to prevent things from happening as much as we can," said Abbey.

Alongside his daily lifeguard responsibilities, Abbey never misses the opportunity to raise awareness and talk about water safety and marine wildlife protections. He actively shares his knowledge with the community, offering valuable and vital information. His commitment to educating others has had a positive impact, benefiting not only the communities within base but also the communities outside. For his efforts and dedication to the community, Clark Abbey has been selected as civilian of the month!

3d MARINE LITTORAL REGIMENT<https://www.3rdmardiv.marines.mil/Units/3d-mlr/>**3d MLR Conducts Beacon Star****Story by 1stLt. Anne Pentaleri**

MARINE CORPS BASE HAWAII – U.S. Marines with 3d Marine Littoral Regiment conducted Beacon Star, a staff planning exercise, on Marine Corps Base Hawaii from 17-27 September, 2024. Beacon Star is focused on staff education, staff planning, and battalion-led field training in order to set conditions for 3d MLR's upcoming Service Level Training Exercise and Marine Corps Combat Readiness and Evaluation Exercise.

During the two weeks of Beacon Star's execution, 3d MLR's 3 subordinate battalions – 3d Littoral Logistics Battalion, 3d Littoral Anti-Air Battalion, and 3d Littoral Combat Team – conducted battalion level and below training in various training areas around Oahu. 3d MLR's staff conducted a successful Marine Corps Planning Process repetition that produced an executable operations order and for SLTE-Hawaii. Another outcome of Beacon Star was the beginning of phased planning for 3d MLR's

second annual deployment to the Philippines, scheduled for 2025.

Staff planning exercises are essential to the Marine Corps ability to identify what capabilities, personnel, and equipment are necessary for a given task or mission prior to its execution. 3d MLR's successful conclusion of Beacon Star demonstrated the unit's "fight now" mentality by readying and posturing its forces to deploy within a moment's notice.
