CG sends: MiC leads the way in MedLog transformation, DEOCS deadline approaches

ABERDEEN PROVING GROUND, Md. — This week, our teammates in AMLC hosted an enriching and informative discussion during their commander's forum. CECOM's medical sustainment experts discussed the Army's continuous transformation efforts and how our entire command fits into tomorrow's Army. I cannot overstate the tremendous efforts AMLC has taken to ensure we, as a command, are at the forefront of modernization, specifically with Medical Logistics in Campaigning.

Passion for service leads Army Civilian to highest-ranking position

REDSTONE ARSENAL, Ala. — For Liz Miranda, plan A was to finish college and work in a big accounting firm, but the Army had a different idea for her. "My plan B became my plan A," said Miranda, who is now serving as Army Materiel Command's highest ranking Army Civilian. Miranda assumed responsibility as the AMC executive deputy to the commanding general Oct. 6. The Puerto Rico native began her service as an Army Civilian about 30 years ago. Her husband had transferred from the Navy Reserve to Army active duty, sending them to Kaiserslautern, Germany.

CECOM chaplain's note

ABERDEEN PROVING GROUND, Md. — Greetings to each of you! I want to take the opportunity to introduce myself and say that I am thankful to join you as part of the CECOM team. Staff Sgt. Fullwood and I make up the CECOM chaplain section and are proud to be a resource available to the entire workforce. In this capacity, we perform or provide religious support for you and your organization on behalf of the CECOM commander. This support comes in the form of participating in your ceremonies, confidential counseling, visits to your location, and connecting you with appropriate spiritual care based on your beliefs, personal needs, and what may be available within your area of operation.

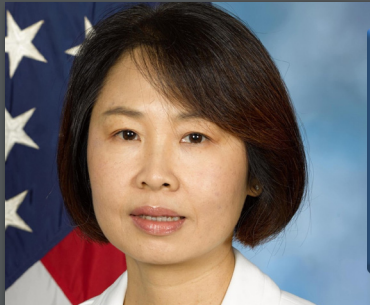

Forward optical fabrication keeps Soldiers in the fight

FORT DETRICK, Md. — In a combat setting, situational awareness is everything. Being able to see clearly, no matter the situation, is a crucial part of staying ready to fight and win against an adversary. That's why the U.S. Army has optical fabrication capabilities positioned in forward locations, such as in Germany and Korea, to provide quick-turn services on various products that keep service members ready to go, including prescription glasses, gas mask inserts, flight goggles and various types of eye protection. "Service members overseas can technically order glasses through state-side vendors, but this process is often slower and less efficient, leading to delays that could impact readiness and operational effectiveness," said Staff Sgt. Anthony Perez.

Army Reprogramming Analysis Team: understanding threats, protecting the warfighter

ABERDEEN PROVING GROUND, Md. — Every year, the Director of National Intelligence, with support from the entire U.S. intelligence apparatus, publishes the Annual Threat Assessment of the U.S. Intelligence Community. The report outlines the most serious and direct threats to the interests of the United States. The most recent report, published in February 2024, outlines a world that is increasingly uncertain.

CECOM ILSC features an AMC Employee of the Quarter

ABERDEEN PROVING GROUND, Md. — When Army Materiel Command recently recognized 12 employees from across the enterprise as Employees of the Quarter, the CECOM Integrated Logistics Support Center was proud to present Ms. Xiao Wang as one of the honorees. According to AMC, Ms. Wang was recognized for “(leading) efforts for several training sessions covering 1,760 National Stock Numbers to influence and level set first-time workflows with all stakeholders and make corrections to gain efficiency and accuracy.”

New mobile app launches on APG

ABERDEEN PROVING GROUND, Md. — The MyArmyPost app recently went live for the Aberdeen Proving Ground community, allowing users to check gate information, organize appointments on base, and stay updated with operating hours at APG establishments. MAPA is a new lifestyle application built by the Army Software Factory, a subordinate command of Army Futures Command, with support from U.S. Army Installation Management Command. MAPA is available on the Google and Apple app stores and offers real-time installation information to Soldiers, families, civilians, contractors, and retirees.

Religious affairs NCOIC aims to ‘bring joy’ to the CECOM community

ABERDEEN PROVING GROUND, Md. — Staff Sgt. Larita Fullwood aims to bring joy and spread positivity as the U.S. Army Communications-Electronics Command’s religious affairs non-commissioned officer in charge. Fullwood, who hails from Hampton, Virginia, serves as the CECOM Chaplain (Col.) Seth George’s right hand as the religious affairs NCOIC. Together, they make up the CECOM Unit Ministry Team. The UMT facilitates religious support for Soldiers, Army Civilians, contractors, and family members.

Tobyhanna celebrated as “Healthy Workplace” at Greater Wyoming Valley Chamber of Commerce annual dinner

TOBYHANNA ARMY DEPOT, Pa. — Business leaders from across the greater Wyoming Valley applauded Tobyhanna Army Depot Thursday night, celebrating the organization’s employee-focused culture. Alongside King’s College, TYAD was presented the Greater Wyoming Valley Chamber of Commerce’s “Healthy Workplace Award” during the Chamber’s annual dinner on Nov. 14. The award, which recognizes businesses that promote health and wellness in the workplace, highlighted the organization in front of more than 400 attendees.

C5ISR Hall of Fame celebrates 10 years and opens Class of 2025 nominations

ABERDEEN PROVING GROUND, Md. — Nominations are now open through Jan. 31, 2025, for the Class of 2025 C5ISR Hall of Fame. The purpose of the C5ISR Hall of Fame is to recognize and memorialize former members of the C5ISR community, which includes both Soldiers and civilians from the Communications-Electronics Command, Army Contracting Command – Aberdeen Proving Ground, Combat Capabilities Development Command C5ISR Center, Program Executive Office Command, Control, Communications, and Network, Program Executive Office...
