LRC Eisenhower R20 pilot simplifies equipment turn in

FORT EISENHOWER, Ga. – It's important for Soldiers to have what they need when they need it, but it's just as valuable to not have extra items taking up valuable space. The Rapid Removal of Excess Organizational Clothing and Individual Equipment helps Soldiers travel lighter with only the essentials they need, eliminating the time and space taken up by outdated textiles and gear.

USASAC talks foreign military sales surge at AUSA Global

HUNTSVILLE, Ala. – The unprecedented surge in America's allies and partners purchasing U.S. military hardware was one of the first topics discussed March 25 to kick off AUSA Global Force Symposium and Exposition in Huntsville. The total value of transferred defense articles and services and security cooperation activities conducted under the FMS system in FY24 was \$117 billion, according to the U.S. State Department. That's a 45% increase from FY23 and the highest ever annual total of sales and assistance provided to our allies and partners.

Innovation in APS technology: Preparing for future warfare

ROCK ISLAND ARSENAL, Ill. – The ongoing conflict in Ukraine has provided essential lessons in logistics and supply chain management, including agility, flexibility and real-time visibility. As the Army reduces its forward troop presence globally and the primary and secondary threats remain high, modernizing Army Prepositioned Stock is crucial to keep pace with Army 2040 and maintain deterrence relevance amidst increasing global projection requirements. APS provides critical warfighting stocks strategically positioned afloat and ashore.

Fort Bragg welcomes pilot rideshare access program

FORT BRAGG, N.C. – Fort Bragg is set to play a key role in an exciting new initiative launched by the Army to improve transportation access for military members, their families, retirees and civilians. The program aims to streamline rideshare procedures, providing reliable and convenient transportation options while adhering to strict security standards. Fort Bragg residents can look forward to enhanced transportation access as the Army collaborates with rideshare companies to address long-standing challenges.

Improving medical readiness through repair parts catalog

FORT DETRICK, Md. – When a medical device breaks down, a quick and effective repair is essential to ensuring readiness. The Army Medical Logistics Command's is taking steps to handle that legwork, cataloging hundreds of repair parts and linking them to dozens of medical equipment systems as it reforms sustainment practices throughout the operational force.

Fort Knox, AAFES unveil installation's sixth 'mini market'

FORT KNOX, Ky. – The Fort Knox garrison command sergeant major and Army and Air Force Exchange Services staff conducted a ribbon cutting ceremony for the installation's sixth Unattended Retail Unit or mini market, March 20. The markets can be customized depending on the size of the location and available utilities and allows Soldiers to quickly access the everyday products they require without the need to travel to a store.

Data reform on display at security assistance conference

NEW CUMBERLAND, Pa. – In a 'data-driven decision making' breakout room, curious attendees gathered to learn about the development of new products and capabilities that will harness the power of data to drive informed business decisions for Army Security Assistance Enterprise stakeholders and streamline foreign military sales to more effectively build partner nation capacity.

Army Housing Tenant Satisfaction Survey underway

FORT MEADE, Md. – The annual Army Housing Tenant Satisfaction Survey was distributed via email to post housing residents during the first week of March. The survey, which runs through May 1, provides service members with an opportunity to offer feedback on their housing experiences. The Army uses the responses to enhance the quality, safety and security of housing facilities.

Fort Novosel doubles down on drone threat in dual exercises

FORT NOVOSEL, Ala. – Fort Novosel conducted a pair of back-to-back exercises to train for the emerging threat of armed drones in early March. The exercises started with a full scale exercise the week of March 3. Conducted by Fort Novosel garrison, the FSE ran a scenario of response to a drone attack. Following the FSE was the Quantum Eagle Exercise lead by the U.S. Army Aviation Center of Excellence.

Chef Irvine visits Fort Buchanan

FORT BUCHANAN, Puerto Rico – Celebrity Chef Robert Irvine, founder of the Robert Irvine Foundation, visited the only U.S. Army installation in the Caribbean, March 18 to learn how the foundation can help enabling the readiness of local warfighters. The chef highlighted the importance of nutrition as a crucial part of keeping military readiness. "Food is an international language that allows the armed forces to accomplish the mission," said Irvine.

TMDE keeps complex devices ready to support the fight

TRACY, Calif. – When using complex medical devices, proper calibration ensures medical personnel can quickly treat battlefield casualties and get Soldiers back into the fight. In dire situations, it can be a matter of life and death. To ensure that crucial calibration, the Army's Test, Measurement and Diagnostic Equipment-Special Purpose program plays a pivotal role for operational medical readiness and safety.
