### **Utilization**

| FY24 | # of Reservable Sites | Actual Days Available (Res & Non Res) | Days Occupied (Res) | Average length of stay | Total Percent Usage (Res) | Number of Visitors | Visitor's Days Used | Total Resv |
|------|-----------------------|---------------------------------------|---------------------|------------------------|---------------------------|--------------------|---------------------|------------|
|      | 81                    | 8762                                  | 2674                | 2.81                   | 30.52%                    | 4408               | 12209               | 952        |

Number of Visitors: Total number of people included in the reservations for the occupied sites during the reporting period

Visitor's Days used: Number of visitors multiplied by the length of stay for each reservation within the reporting period

### **Sales**

| Period | Sales    |
|--------|----------|
| FY24   | \$47,225 |
| FY23   | \$41,601 |
| FY22   | \$56,266 |

### **Utilities**

|      | Electric | Water   | Trash   |
|------|----------|---------|---------|
| FY24 | \$15,291 | \$4,454 | \$6,279 |
| FY23 | \$15,394 | \$2,818 | \$6,279 |
| FY22 | \$18,585 | \$5,858 | \$6,199 |

Sewage: North Fork sends sewage to Axtel Campground. We provide port-a-johns in the day-use area during summer and relocate them to the ramp in the winter when the ramp bathroom is closed due to freezing temperatures. Annual port-a-john costs are \$1,800.

**Mowing Acreage** – 34 acres
