STANDARDS DEVIATIONS

Regulations, policies and safety procedures are not arbitrary obstacles to efficiency; they are the bedrock of operational integrity. Adherence to these standards is most critical precisely when the pressure is highest, as it provides a disciplined framework that prevents costly errors in judgment and execution under stress. This principle is magnified exponentially in the world of ammunition and explosives management, where the unforgiving nature of energetic materials leaves no room for error.

TOWING SAFETY

The eight-lane highway was busy, but traffic was flowing at the 65-mph speed limit. I was traveling in the far-right lane when I suddenly felt the trailer jerking violently from side to side. I watched in horror as it broke completely free.

CREW COORDINATION

My SP realized what I'd done and yanked back on the cyclic, arresting the descent. I released the controls, thinking he'd taken them back, even though we hadn't positively transferred them. At this point, no one was flying the aircraft.

PRODUCTS & TOOLS

Learn the safety culture and climate within your organization.

A family of information technology systems that underpins the Army Safety and Occupational Health Management System.

A great resource for motorcycle information and learning to be a safe rider.

An interactive, easy-to-use, automated system designed to assist users with the application of risk management.

Make your Soldiers aware of the off-duty hazards they'll face with the Off-Duty Safety Awareness Presentation.

A collection of resources to aid commanders and leaders in the management of range operations and safe weapons handling.

DID YOU KNOW?

RISK MANAGEMENT is always looking for contributors to provide ground, aviation, driving and off-duty safety articles. Don't worry if you've never written an article for publication. Just write about what you know and our editorial staff will take care of the rest. Your story might just save another Soldier's life. Click the **Submit An Article** tab below to share your story.

WHAT'S NEW

SUPERVISOR'S GUIDE TO SOH

Supervisors are the backbone of workplace safety and occupational health. As leaders, you are entrusted with the critical responsibility of protecting your team, ensuring compliance with safety regulations and fostering a culture where safety is a shared value. The Supervisor's Guide to Safety and Occupational Health is your comprehensive resource to navigate these responsibilities effectively, equipping you with the tools, strategies and knowledge to create a safer, more productive work environment. **Click here to check it out.**

BEAT THE HEAT!

TAKE STEPS THIS SUMMER TO PROTECT YOURSELF FROM BECOMING A HEAT CASUALTY.

- SCHEDULE WORKOUTS EARLIER OR LATER IN THE DAY WHEN THE TEMPERATURE IS COOLER.
- START ACTIVITIES SLOWLY AND PICK UP THE PACE GRADUALLY.
- DRINK MORE WATER THAN USUAL. DON'T WAIT UNTIL YOU'RE THIRSTY.
- MONITOR YOUR BATTLE BUDDY'S CONDITION AND HAVE THEM DO THE SAME FOR YOU.
- WEAR LOOSE, LIGHTWEIGHT CLOTHING.
- IF YOU FEEL FAINT OR WEAK, STOP ALL ACTIVITY AND GET TO A COOL PLACE.
