Army accelerates transformation across the OIB

REDSTONE ARSENAL, Ala. – The Army is driving forward on the overhaul of its organic industrial base as sweeping changes are taking shape across the service's 23 depots, arsenals and ammunition plants. From a new advanced manufacturing line to ramping up small-unmanned aircraft system component production, the OIB is rapidly transforming into a modern, data driven industrial engine.

SecArmy and Under Secretary of War visit LEAD

CHAMBERSBURG, Pa. – Top defense officials, including Secretary of the Army Dan Driscoll and Under Secretary of War for Acquisition and Sustainment Michael Duffey, toured Letterkenny Army Depot July 14 to inspect the depot's critical role in providing precision sustainment to combat formations. "What I saw at Letterkenny today is the standard: a logically structured, incredibly efficient operation," said Driscoll.

Soldiers strengthen mission readiness at MCAAP

MCALISTER, Okla. – Soldiers from the 1742nd Transportation Company, South Dakota Army National Guard, recently completed Operation Patriot Press exercises at McAlester Army Ammunition Plant. OPP is one of the Army's sustainment focused training missions, giving transportation units the opportunity to work directly within the logistics and industrial environments that keep the force supplied.

Carson Connector picking up speed

FORT CARSON, Colo. – The Carson Connector free ride-share program amassed more than 10,000 rides in its first month of operation. The service provides Soldiers, military families and civilians with rides across post. "The intent was to create a more user-friendly transit system that had a wider audience than previous systems," David Tookmanian, Fort Carson Plans, Analysis and Integration Office, said.

MICC contracting advances barracks modernization

FORT POLK, La. – Contracting professionals from the Mission and Installation Contracting Command helped bring one of the Army's most innovative military construction projects to life while reducing construction time and cost, marked by the June 26 groundbreaking of the new Rotational Unit Billeting Area, or RUBA, at the Joint Readiness Training Center and Fort Polk.

Army awards first FORGE contract at JBLM

JOINT BASE LEWIS-MCCHORD, Wash. – The Army awarded its first contract under the FORGE program July 7 using an Other Transaction Agreement, marking a milestone in installation modernization and Army contracting. The Facilities, Operations, Readiness, Growth and Experience program, a \$250 million Secretary of the Army-directed initiative, aims to modernize 19 projects at Joint Base Lewis-McChord.
