Driscoll highlights partnerships during JSMC visit

LIMA, Ohio – Secretary of the Army Dan Driscoll visited Joint Systems Manufacturing Center-Lima June 5 to stress the importance of industry partnerships and transformation. Leaders from Army Materiel Command, Tank-automotive and Armaments Command, Army Contracting Command-Detroit Arsenal, and General Dynamics, were present to discuss how the Army can continue to strengthen industry collaboration.

Army breaks ground on state-of-the-art ammo plant

MIDDLETOWN, Iowa – The U.S. Army marked a significant milestone July 15 in its modernization efforts by breaking ground on a new 155 mm ammunition production facility at Iowa Army Ammunition Plant in Middleton. The project will replace the plant's current WWII-era M795 artillery production line, which is nearing the end of its operational life – despite numerous upgrades over the years.

Fort Drum gets a taste of CSDV at Belvedere Bistro

FORT DRUM, N.Y. – Ahead of the grand opening July 30, a select number of 10th Mountain Division Soldiers have been eating at the new Belvedere Bistro so that staff can fine-tune services, workflow and receive feedback on the dining experience. The three-day soft opening also allows Soldiers to familiarize themselves with the Army's newest Campus-Style Dining Venue, a concept which mirrors a modern university dining hall or food court.

596th establishes new headquarters at JBLM

JOINT BASE LEWIS-MCCHORD, Wash. – The 596th Transportation Brigade marked a historic milestone July 20, establishing its new headquarters at Joint Base Lewis-McChord, during a ceremony that included the uncasing of the brigade colors and a ribbon-cutting for the new headquarters.

Fort Drum enhances post infrastructure

FORT DRUM, N.Y. – The Fort Drum Directorate of Public Works completed two vital infrastructure upgrades in July, replacing emergency power generators at the 10th Mountain Division headquarters and rebuilding a failing drainage culvert in the training area. DPW Operations and Maintenance Division teams recently swapped out aging gas generators at Hays Hall for highly efficient diesel units to ensure uninterrupted power.

Leaders assess infrastructure at Fort Stewart

FORT STEWART, Ga. – Fort Stewart-Hunter Army Airfield welcomed Assistant Secretary of the Army for Installations, Energy and Environment, Jordan Gillis, July 9 as he visited the installation and 3rd Infantry Division for the first time in his current position. Fort Stewart leadership and key Directorate of Public Works leaders first took Gillis' team to tour a set of non-remodeled VOLAR Barracks which were built throughout the installation from 1977-1983.
