

U.S. Army Materiel Command Eye On AMC

Wednesday, August 12, 2026

ParaLine to transform property accountability

REDSTONE ARSENAL, Ala. – Army Materiel Command is rolling out a progressive web application poised to revolutionize property accountability across the Army, saving Soldiers a significant amount of time while conducting inventory and increasing readiness. ParaLine is a mobile environment that allows Soldiers to leverage existing AUDS-enabled tablets to manage inventory and property books with speed and accuracy.

Cold War-era barracks receiving crucial renovations

FORT LEONARD WOOD, Mo. – For decades, they housed generations of Soldiers preparing for battle — a comprehensive infrastructure modernization project underway on Fort Leonard Wood's Cold War-era barracks are priming them to support thousands more combat-ready Soldiers. More than half of the 30 rolling-pin-style barracks on Fort Leonard Wood have undergone renovations so far.

Soldiers taking care of Soldiers with The Outpost

FORT SHAFTER, Hawaii – Before most Soldiers begin thinking about lunch, the team behind The Outpost has already spent hours preparing fresh meals from scratch, ready to serve Soldiers across Fort Shafter. The Outpost, operated by culinary specialists from 25th Infantry Division, was brought to Fort Shafter to improve access to nutritious meals for Soldiers receiving Basic Allowance for Subsistence while the installation dining facility is closed.

Mohan leaves Army for greener pastures

REDSTONE ARSENAL, Ala. – After four decades of service, marked by championing innovation and challenging the status quo, Lt. Gen. Chris Mohan, commanding general of Army Materiel Command, relinquished command and retired during a ceremony Aug. 7 at AMC headquarters. Mohan led the Army's largest sustainment organization since March 2024, through a period of intense transformation.

ACC is changing how it buys AI services

ROCK ISLAND ARSENAL, Ill. – Army Contracting Command - Rock Island Arsenal has been developing an automated services platform called Army Marketplace, Automation, and eExecution, known as "Army MAX." Army MAX is a new, cloud-based platform that simplifies service acquisitions by accelerating the process so you can get your requirements to solicitation faster. This means no more manual data entry across disconnected systems.

IGSA strengthens partnership with community

SIERRA VISTA, Ariz. – The U.S. Army Garrison Fort Huachuca signed an Intergovernmental Support Agreement with the Southeastern Arizona Communications Center to provide part-time emergency dispatch services, including the handling of 911 calls. SEACOM will provide the Fort with part-time emergency dispatch services Monday through Friday from 10 p.m. to 6 a.m., as well as 24 hours a day on weekends and federal holidays.
