LEFT-TURN CRASHES

A rider narrowly avoided a deadly collision in the Florida Panhandle when a driver turned directly into his path. This near-miss highlights a critical hazard that causes more than one-third of all multi-vehicle motorcycle crashes on public roads. Fortunately, the rider's swift defensive maneuvers saved his life. Read the full story to learn how advanced rider training, high-visibility gear and proactive habits prevent these hazardous highway encounters.

COMMUNICATION DISCIPLINE

Unpredictable weather and a sudden, silent maneuver nearly turned a routine Black Hawk mission into a disaster. Discover how a critical breakdown in communication put three crews at risk and what vital safety lessons they learned from their close call.

PRODUCTS & TOOLS

Learn the safety culture and climate within your organization.

A family of information technology systems that underpins the Army Safety and Occupational Health Management System.

A great resource for motorcycle information and learning to be a safe rider.

An interactive, easy-to-use, automated system designed to assist users with the application of risk management.

Make your Soldiers aware of the off-duty hazards they'll face with the Off-Duty Safety Awareness Presentation.

A collection of resources to aid commanders and leaders in the management of range operations and safe weapons handling.

DID YOU KNOW?

RISK MANAGEMENT is always looking for contributors to provide ground, aviation, driving and off-duty safety articles. Don't worry if you've never written an article for publication. Just write about what you know and our editorial staff will take care of the rest. Your story might just save another Soldier's life. Click the **Submit An Article** tab below to share your story.

WHAT'S NEW

HEAT ILLNESS PREVENTION

Proactive leaders and Soldiers can prevent dangerous heat illnesses that take troops out of the fight. From minor cramps to deadly heatstroke, high temperatures and dehydration threaten force readiness daily. Protect your unit by mastering key acclimatization strategies and strict hydration discipline. Watch this essential video today to discover how to enforce proper risk mitigation measures during training and keep your entire team safe in hot environments.
