U.S. ARMY

RM RISK MANAGEMENT

OFFICIAL SAFETY MAGAZINE OF THE U.S. ARMY

THIS WEEK 19-23 OCT 2026

PROFILE OF A CASUALTY

Preventable cold-weather injuries threaten combat readiness, but leaders can protect their Soldiers by identifying high-risk personnel. The typical victim is a young male Soldier from a warm climate. Discover how the buddy system and active leadership defeat winter hazards. Read the full article to keep your Soldiers safe in the field.

AIRCRAFT INSPECTIONS

A postflight inspection on an AH-64E revealed a loose panel fastener that could have caused a catastrophic flight emergency. Discover how this aircrew beat complacency and operational pressure to uphold rigorous maintenance standards.

WINTERIZING MOTORCYCLES

Properly preparing your motorcycle for winter storage saves time, headaches and money. Follow these eight simple steps to thoroughly protect your bike, ensuring an easy start when the riding season returns.

PRODUCTS & TOOLS

ARAP — ARMY READINESS ASSESSMENT PROGRAM

Learn the safety culture and climate within your organization.

ASMIS 2.0 — Army Safety Management Information System

A family of information technology systems that underpins the Army Safety and Occupational Health Management System.

A great resource for motorcycle information and learning to be a safe rider.

JRAT — JOINT RISK ASSESSMENT TOOL 2.0

An interactive, easy-to-use, automated system designed to assist users with the application of risk management.

Make your Soldiers aware of the off-duty hazards they'll face with the Off-Duty Safety Awareness Presentation.

RANGE & WEAPONS SAFETY TOOLBOX

A collection of resources to aid commanders and leaders in the management of range operations and safe weapons handling.

DID YOU KNOW?

Do you want to start receiving U.S. Army Combat Readiness Center safety products — such as the weekly **RISK MANAGEMENT** newsletter and Preliminary Loss Reports — via email? If so, just click the **subscribe to safety products** box at the bottom of this newsletter and select which products you'd like to receive.

WHAT'S NEW

FIRE PREVENTION

Preventable fires cost the Army lives and millions of dollars in equipment losses. Protect your unit by utilizing the USACRC website's fire prevention page to train Soldiers on safely operating space heaters, avoiding overloaded outlets and establishing clear escape plans. These simple safeguards save lives and preserve readiness.
