EMERGENCY ACTION PLANS

Emergency action plans are only effective when personnel understand what to do before an emergency occurs. For safety officers, the availability of Percipio safety training in the Army Safety Management Information System (ASMIS 2.0) provides a practical way to build baseline awareness, reinforce local procedures and document training aligned to workplace hazards. Discover how to boost your safety preparedness today and equip your team to act confidently during any crisis.

CHECKLIST DISCIPLINE

A brief lapse in checklist discipline turned a routine UH-60V Black Hawk engine shutdown into a severe injury. This gripping mishap warns aircrews that procedural complacency can transform a postflight walkaround into an agonizing medical emergency.

HAZARD IDENTIFICATION

A distracted driver nearly struck a Soldier and his wife during a routine motorcycle ride. Discover how disciplined awareness, proper protective gear and essential safety training saved the couple from becoming another tragic roadway statistic.
